Dear HR Manager:

This letter is to express my interest in your posting for a Front-End Developer. With an Advanced Diploma from George Brown College's T127 - Computer Programmer Analyst program, and hands-on experience working with MEAN and MERN stacks to create and implement web applications, I am confident I will be fit for this position.

I enjoy being challenged and engaging with projects that require me to work outside my comfort and knowledge set, as continuing to learn new languages and development techniques are important to me and the success of your organization.

The job posting requirements the are listed closely match my background and skills.

Qualifications I would like to highlight that I match in are:

- Exception knowledge of HTML5, and CSS3
- Experience with media queries and responsive design
- Good working knowledge of JavaScript and jQuery
- Basic knowledge with graphic design tools
- Proven ability to integrate multiple front-end development technologies
- A strong desire to continue learning and improving your skills

I've attached a copy of my resume in this application for your consideration. I can be reached anytime via my cellphone, on the number, +1-(647)-838-3862 or via email at jsylucero@outlook.com.

Thank you for your time and consideration. I look forward to speaking about this opportunity with you.

Sincerely,

Jullian Sy-Lucero
